

deepzeta • AI Digital Solutions

Website owner checklist

Everything Claude needs from you to build the website. Tick each box when it's done. Most items are only needed before a later phase, so you can start with Part 1.

Name

Started

Updated

Priority:

BEFORE START

 Needed before Claude can start

BEFORE PHASE

 Needed before a specific build phase

BEFORE LAUNCH

 Needed before the site goes live

✓ in a box = already done. Write IDs and answers on the lines. Never write passwords or secret keys on this sheet.

PART 1 Needed before Claude can start (Phase 0)

5 items • ____ done

- ☐

Install Node.js LTS

Windows installer from nodejs.org. Keep "Add to PATH" ticked. Git is already installed (2.55).

START
- ☐

Approve the rule system (last step of the pre-build phase)

☐ Fix the index table in docs/decisions/README.md: 0004 and 0005 should say ACCEPTED, not PROPOSED

START
- ☐

Apply the rule-changes plan

docs/plans/2026-09-26-stack-rule-changes.md. It changes protected rule files, so either edit them yourself or tell Claude explicitly to apply it.

START
- ☐

Create the GitHub repository

☐ Private and empty (no README, no .gitignore)

☐ Turn on 2FA for the deepzetaoffice-cloud account

☐ Send the repo URL to Claude:

☐ Protect main after the first commit (Claude sends click-by-click steps)

START
- ☐

Check your Vercel account

☐ Confirm which account to use:

☐ Check the current terms. The free Hobby plan may be for non-commercial use only, so plan for Pro.

☐ Don't import the repo yet. That happens in Phase 0.

START

PART 2 Decisions only you can make

15 items • ____ done

Tick the option you choose, then tick the card's main box when the decision is final.

☐ **D1 Domain**

START

Name:

☐ .com

☐ .ae

☐ Asked registrar if I qualify for .ae

Blocks: business email, Search Console, site address in schema and links, spam protection, booking branding

☐ **D2 Company entity**

START

☐ Own licence

☐ Brand of an existing company

☐ Free zone

☐ Mainland

Blocks: legal name in footer and legal pages, Meta and WhatsApp verification, Google Business Profile

☐ **C6 Site structure**

START

☐ 4 pillars: AI / Websites / Software / Growth

☐ 4 buyer stages: Get Found / Win / Run / Get Paid & Keep

Blocks: navigation, service page addresses, icon colours

☐ **4 Design direction**

PHASE

☐ A Signal Grid

☐ B Control Room

☐ C Daylight

☐ Mix A + B (recommended)

Dark by default with a light-mode switch?

☐ Yes

☐ No

Blocks: brand work, header and footer

☐ D4 Business model PHASE ☐ Confirm hybrid model (custom projects + packages) Public "starting from" prices? ☐ Yes ☐ No Blocks: the pricing page	☐ 6 Service pages at launch PHASE Confirm the list by Services Catalogue name (see Part 8). The catalogue names win over the blueprint's page addresses. Blocks: service pages
☐ 7 6 industries at launch PHASE ☐ Real Estate ☐ Healthcare / Clinics ☐ E-commerce ☐ Education ☐ Technical & Facility Services ☐ Hospitality Other: _____ Blocks: industry pages	☐ 8 Starter offer pages PHASE AI Readiness Assessment page? ☐ Yes ☐ No Website & AI Search Health Check page? ☐ Yes ☐ No Blocks: page map
☐ 9 n8n hosting PHASE ☐ n8n Cloud (recommended) ☐ Self-hosted Blocks: all automations	☐ 10 AI chat agent language PHASE ☐ English only at launch ☐ English + Arabic Blocks: the chat demo
☐ 11 Newsletter at launch PHASE ☐ No ☐ Yes. Tool: _____ Blocks: newsletter form	☐ 12 Blog at launch PHASE ☐ No ☐ Yes Who writes: _____ How often: _____ Blocks: resources section
☐ 13 Wasleen case study PHASE ☐ Not allowed ☐ Allowed, and I'll confirm the real numbers Note: none of Wasleen's company data is reused. Blocks: case studies	☐ 14 AI crawler policy LAUNCH ☐ Keep: AI training bots read only llms.txt ☐ Allow all ☐ Block all Blocks: robots.txt
☐ 15 Brand spelling LAUNCH ☐ Always lowercase "deepzeta", even at the start of a sentence ☐ "deepZeta" (as in the logo folder) ☐ Other: _____ Blocks: all website copy	

This fills **docs/facts/company-facts.md**. Only you edit that file. You can paste your answers to Claude, who prepares the update for you to approve.

Identity 🟡 PHASE

☐ Legal company name, exactly as on the licence

☐ Entity type and licensing authority

☐ Trade licence number _____

☐ Founding date (month and year) _____

☐ VAT registration number, if registered _____

Show it on the site? ☐ Yes ☐ No

Contact details 🟡 PHASE Must be identical everywhere, character for character

☐ Street address (exact format), emirate, P.O. Box

☐ Google Maps pin link _____

☐ Phone number (+971...) _____

☐ WhatsApp number ☐ Same as phone ☐ Different: _____

☐ Public email address(es), e.g. hello@, audit@

☐ Opening days and hours _____

☐ Service area ☐ UAE only ☐ GCC countries: _____

☐ Languages the team speaks with clients _____

People 🟡 PHASE About page and authors

☐ Name, role and 80–150 word bio for each person shown

☐ Credentials and certifications, with proof

☐ LinkedIn profile URLs

☐ Professional headshots in one consistent style,
or a decision not to show the team

Story 🟡 PHASE

☐ Why deepzeta started, in your own words

☐ Your mission

☐ What makes you different

☐ What can be said publicly about the link to Wasleen

Offer details 🟡 PHASE

☐ "Starting from" price per package ☐ In AED ☐ Incl. VAT ☐ Excl. VAT

☐ Free audit details

☐ How long it takes _____

☐ ☐ Online ☐ In person ☐ Both

☐ What the client receives

☐ Who qualifies

☐ Real timeframes for each step: Audit → Build → Launch → Improve

☐ Contract, payment and ownership terms

Does the client own the code and accounts?

☐ Guarantee or support / retainer terms

Only if they're real

FAQ answers PHASE 8 real buyer questions

☐ Cost

☐ Timeline

☐ Data safety (where data is stored)

☐ Arabic support

☐ Contract length

☐ Tools used

☐ What happens after launch

☐ Ownership

Proof PHASE Nothing here can be invented, so start early

CASE STUDY ITEM	CS 1	CS 2	CS 3
Client name, or permission to anonymise	☐	☐	☐
Industry	☐	☐	☐
The problem	☐	☐	☐
What you built	☐	☐	☐
Before / after numbers with how and when they were measured	☐	☐	☐
Screenshots	☐	☐	☐
Client's written permission	☐	☐	☐

☐ **Client logos**, with written permission for each one

☐ **Testimonials and reviews**, with real name, role and permission

☐ **Partner statuses** (Google Partner, Meta Partner, n8n...), only current ones, with proof

Tools you only use (OpenAI, Anthropic, Make) appear as "tools we work with", not as partner badges.

Ground rules for every account

- Open every account under the **business** Google / Workspace account, never a personal one.
- Use a password manager and turn on 2FA everywhere.
- Never paste secret keys into chat or any file Claude edits. Send only public IDs (GTM-..., G-..., Pixel ID, Turnstile site key).
- Secret keys go into Vercel's environment variables or your own `.env.local`.

4.1 Domain and email after D1

- ☐ Buy the domain(s) 🕒 PHASE
- ☐ DNS managed at ☐ Registrar 🕒 PHASE
☐ Cloudflare
- ☐ Google Workspace on the domain 🕒 PHASE
- ☐ Mailboxes / aliases: ☐ hello@ 🕒 PHASE
☐ leads@ ☐ noreply@
n8n sends email from noreply@
- ☐ SPF, DKIM and DMARC records 🕒 PHASE
Claude sends the steps

4.3 Meta start early, verification takes time

- ☐ Meta Business Portfolio, details 🕒 PHASE
matching your contact details exactly
- ☐ Facebook Page + Instagram Professional 🕒 PHASE
account, connected
- ☐ Business verification 🕒 PHASE
Needs the legal documents from D2
- ☐ Pixel (dataset) in Events Manager. ID: 🕒 PHASE

The server-side (CAPI) token comes later and is a secret.

- ☐ **WhatsApp Business Platform** (Cloud 🕒 PHASE
API)
 - ☐ Dedicated number not active in the WhatsApp app (or migrate it)
 - ☐ Display name "deepzeta" approved
 - ☐ Payment method added
 - ☐ Message template submitted (Claude drafts the text)

4.4 LinkedIn

- ☐ Company page 🕒 PHASE
- ☐ Campaign Manager ad account 🕒 PHASE
- ☐ Insight Tag. Partner ID: 🕒 PHASE

4.2 Google before Phase 3

- ☐ Tag Manager: account "deepzeta", Web 🕒 PHASE
container
Don't add tags or publish yet.
ID: _____
- ☐ GA4 property 🕒 PHASE
 - ☐ Time zone Dubai, currency AED
 - ☐ Web data stream on the final domain
 - ☐ Data retention: 14 months
 - ☐ ID G-: _____
 - ☐ Don't paste the gtag snippet anywhere (it goes through GTM)
- ☐ Google Ads account (even with no ads 🕒 PHASE
yet), linked to GA4. Customer ID: _____
- ☐ Search Console: Domain property, 🕒 LAUNCH
verified by DNS TXT, linked to GA4
- ☐ Bing Webmaster Tools: import from 🕒 LAUNCH
Search Console
- ☐ Google Business Profile (after D1 + D2): 🕒 LAUNCH
exact name, address, phone (or service area), then verify

4.5 Booking: Cal.com before Phase 7

- ☐ Account created, Workspace Google 🕒 PHASE
Calendar connected
 - ☐ Event type "Free AI Automation Audit" 🕒 PHASE
 - ☐ Duration, buffer, minimum notice
 - ☐ Dubai-time availability, Google Meet
 - ☐ Questions: name, email, company, WhatsApp, industry, biggest time-waster
- The webhook to n8n comes later.

4.6 Automation and AI

- ☐ n8n Cloud account (check current 🕒 PHASE
pricing first)

- ☐ Anthropic Console 🕒 PHASE
 - ☐ Organisation and billing set up
 - ☐ Monthly spend limit set
 - ☐ API key created, kept only in the password manager
- ☐ Google Sheet CRM, later, from a guide 🕒 PHASE
Named accounts only, never "anyone with the link" (UAE PDPL)

4.7 Spam protection

- ☐ Cloudflare account 🕒 PHASE
- ☐ Turnstile widget for the domain 🕒 PHASE
Site key public, secret key private
- ☐ Upstash account (direct or via Vercel Marketplace) 🕒 PHASE
- ☐ Redis database in the region closest to the Vercel functions 🕒 PHASE

PART 5 Social media handles

3 items · ____ done

- ☐ **Pick one handle** and check it's free on every platform **before** buying the domain. Handle: 🕒 PHASE

PLATFORM	CLAIMED	WILL POST	PROFILE URL
Instagram	☐	☐	
Facebook	☐	☐	
LinkedIn (company page)	☐	☐	
X	☐	☐	
YouTube	☐	☐	
TikTok	☐	☐	
Threads comes with Instagram	☐	☐	
GitHub organisation optional	☐	☐	
Clutch / GoodFirms optional, helps AI-search mentions	☐	☐	

- ☐ Every profile filled the same way: same bio (from the positioning line), website link, identical contact details 🕒 PHASE
Claude makes the avatar and cover images in Phase 1. The logo file stays untouched.
- ☐ Sent Claude the final URLs and which profiles are active 🕒 PHASE
Only active profiles go in the footer and schema.

PART 6 Legal and compliance

5 items · ____ done

- ☐ **Privacy policy, terms, cookie wording** ○ LAUNCH
Claude drafts them from UAE PDPL rules.
Give Claude:
 - ☐ Data controller (legal entity from D2)
 - ☐ Where data is stored (n8n region, Google, Vercel)
 - ☐ How long leads are kept _____
 - ☐ Email for data requests
 - ☐ Reviewed by a UAE lawyer
- ☐ WhatsApp marketing consent wording approved ○ LAUNCH
- ☐ Free zone data law? ○ LAUNCH
 - ☐ DIFC ☐ ADGM ☐ Neither
- ☐ Trademark check on "deepzeta" ○ LAUNCH
Optional, but wise before spending on the brand
- ☐ Signed permission for every case study, logo and testimonial ○ LAUNCH

PART 7 Brand and media

6 items · ____ done

- ☒ **Logo**
Done and locked
- ☐ Approve the favicon and app icon ○ PHASE
Made in Phase 1
- ☐ Real photos (founder, team, workspace), ○ PHASE
or a decision to use none
No stock photos of fake teams
- ☐ Screenshots of real work for the case studies ○ PHASE
- ☐ Short founder intro video ○ PHASE
Optional
- ☒ **Fonts**
Montserrat, Readex Pro, JetBrains Mono are free. No action needed.

From the blueprint. Tick **Keep** or **Cut** for each row. About **42–47 English pages** at launch. Arabic (/ar/) and industry × city pages (e.g. "AI automation for dental clinics in Dubai") come after launch.

CORE PAGE	ADDRESS	KEEP	CUT	SERVICES	KEEP	CUT

ROADMAP Suggested order

- ☐ 1 **Part 1:** Node.js, GitHub, Vercel, approvals. Claude can start Phase 0 as soon as this is done.
- ☐ 2 **D1 domain + D2 entity + handle check + C6 + design direction.** These unlock most of the rest.
- ☐ 3 Domain → Workspace → GTM, GA4, Cloudflare, before Phase 3.
- ☐ 4 Company facts, contact details, people and photos, before the homepage and core pages.
- ☐ 5 Start Meta and WhatsApp verification early.
- ☐ 6 Prices, FAQ answers and case studies, before the service and case-study pages.
- ☐ 7 n8n, Anthropic, Cal.com and Upstash, before the live demos.

☐ **8** Legal review, Google Business Profile, Search Console and Bing, before launch.
